Buckhorn

Nov. 3

It seems to be carrying Hallowe'en jokes too far when a bunch of boys can gather at the home of farmers when they are in the middle of threshing, and taking implements from sheds, taking them apart, tilling doubletrees, etc., and making a general disturbance. Busy farmers have enough to do without having extras piled on their shoulders in this way. It would be well for you boys, and we have a pretty good idea who it is, to stop before further trouble follows.

Our bubble bursted at last, and it was sure a bowling success—about 100 people gathered. After an artistic march of ghosts, witches etc., the evening was opened by Spook Band and chorus by Sunday school, followed by a long program which was well rendered. Brave boys and girls, who says Buckhorn folks cannot come to the front? The future will no doubt see some of them turning out great actors and orators. The noted "Alexander's Band" made a great hit, and we hope our colored friends will pay Crystal Springs another visit in the near future. Andy Gumps, another noted genius also brought the house down, and our dear little boys and girls, with their nursery rhymes, are worthy of note. The whole thing, from start to finish showed what can be done by earnest endeavour. The Sunday school desires to thank our visitors from the surrounding districts for their attendance.

Laura Frizzel is visiting at Buckhorn and with Mrs Collis, taking in the social on the 26th.

In spite of the dry season some of Buckhorn's farmers are blessed with bumper crops, and it makes one feel happy to see such good returns. Every cloud has a silver lining.

Who says women cannot vote? Monday, the 26th, showed what interest they are taking. It was good to see Mrs E. H. Rowe and Mrs C. J. Eley taking office as returning officer and clerk. There is a bright future ahead if women will come forward and show a greater interest in the welfare of the Dominion.

Nov. 9

Many of Buckhorn's young people journeyed to Springdale Friday, celebrating Guy Fawkes by dancing the night through. In spite of bad roads and stormy weather a large crowd turned out, and the report goes to show that all had a swell time.

Mr Weatherman is very unruly lately, giving us a taste of Jack Frost and a blanket of snow. We must now get our shovels and trowels going to keep out the cold.

A. Davidson and Ray Stream have gone on a hunting expedition. They are after things somewhat larger than our prairie hen. May they return well loaded with moose, bear and deer.

The farmers in this district are busy teaming their grain out before winter sets in and the roads become bad.

E. H. Rowe and George Twiss paid Rimbey a flying visit last week. They report brisk business in that flourishing town.

Many folks of this district took in the Uhlman and Flagg sale. A large crowd turned out and things sold at a very good price.

It is whispered around that we are going to have a box social at Crystal Springs schoolhouse in the near future, so get ready, boys, to bring that little girl of yours out to another social.

Sunday school will be held at the home of Mr and Mrs E. H. Rowe on Sunday, Nov. 14.

TRISTRAM FARMER GETS DIVORCE

The application of Hubert H Orser, a farmer of Tristram, Alta., for a divorce from his wife, Agnes May Orser, was granted by Mr Justice Walsh in the supreme court, Edmonton, on Wednesday, Nov 3rd. The usual decree nisi was granted with a stay of three months in the proceedings. The parties to the action were married at Sanford, England, on August 28, 1918. Statutory offences were charged, and a letter from the defendant, in which she admitted that she was living with another man in Calgary, was produced.

Asker

Rev. James, of Wetaskiwin, conducted service and communion in the church a week ago.

The U.F.A. and W. had a splendid meeting on Monday evening last. A great deal of business was transacted in both clubs, and the evening wound up with the usual refreshments being served by the ladies, after which the U.F.A. had a spirited debate.

Mrs Barington went to Edmonton for the convention, as the children are having a long holiday.

M. Krefting spent the week in Edmonton, where he had his teeth attended to by a specialist.

Harold Paulsen gave a party to his friends on Saturday evening. His spacious rooms were crowded to overflowing, and all are commenting on the lovely time.

Miss Martha Paulsen spent the week-end at home. Her friends, Miss Alma and Clara Kjos, of Wetaskiwin, accompanied her.

Rev. Fosdtvedt conducted service last Sunday morning at Asker, and in the afternoon at Calumet.

A very quiet Hallowe'en and no trouble anywhere.

The directors are giving a ratball social at the hall on Friday the 12th. Ladies please bring ball and give every little boy a good chance. Good music, good time.

Girl Swims Down Roaring Rapid

Scenes of the most expert swimming are among the unique features of "Back to God's Country," a first national special attraction written by James Oliver Curwood the most famous writer of animal life of the day.

Nell Shipman, who takes the leading role, is an expert in the art and swims the turgid mountain streams with ease and grace. She swims down great rapids, where making a single misstroke might cost her life on the rocks. She swims through a boiling eddy clear under a great waterfall.

The picture was taken near Great Slave Lake, and will be shown at the Empress Theatre on Friday and Saturday, Nov. 12 and 13.

IMMIGRATION MOVEMENT TO CANADA GROWS

Winnipeg, Nov. 9—The Ottawa correspondent of the Manitoba Free Press says:—"It is estimated here that the immigration movement to Canada for the present year will approximately be 190,000 the new comers being very largely from Great Britain and the United States."

HOME GLEN

Red Cross pie social will be held in the schoolhouse at Home Glen on Friday, November 19th.

PALMER-RATLEDGE

The wedding took place of Miss Anna Grace Ratledge and Mr Ray Palmer, at the home of Mr P. W. Robertson, 107th Street, Edmonton, on Saturday evening, October 30th. They will make their home at Archerwill, where Mr Palmer has a farm.

EDINGER MORRIS

A happy event took place in the Union Church Parsonage on Thursday, Nov. 4th, at 11 a.m., when Miss Louise Morris was united in matrimony to Mr Alfred Edinger. The bride's sister, Miss Mabel Morris, acted as bridesmaid, and Mr Gustav Edinger supported the groom. Both young people belong to the Asker district, where they are very popular, and where they will make their home. A few immediate relatives witnessed the ceremony, which was performed by the Rev. C. Bishop.

PONOKA MARKETS

Prices of grain supplied by Elevators on Wednesday, Nov. 10, are as follows:

Wheat, No. 1 Northern, per bush.		1.76

Sound Financing All Round

The Great War brought about many developments and revealed many hitherto unsuspected powers in Canada. This Dominion was discovered as being capable of wielding a military strength and prowess undreamed of by itself or any other people. It demonstrated its ability to produce munitions of war on a scale of great magnitude. Even under adverse conditions, its productive capacity in all directions was shown to be almost beyond measure when all its people willed to sacrifice, serve and save.

But probably Canada's most unexpected and amazing strength was revealed in its ability to finance itself even under the enormous obligations and expenditures which war forced upon it. Before the war, Canada was a borrowing nation, and a borrowing nation on a large scale. The idea of Canada raising from among its own people the money necessary to carry on government and the large expenditures required for development purposes of a national character never suggested itself to the Canadian people. Federal and Provincial Governments, municipalities and large corporations were content to float their bonds and sell their debentures in Great Britain and the United States.

The Great War changed all this. At the outset, Canada borrowed from Great Britain; later it borrowed from the United States. During the last three years of the war, however, Canadians themselves supplied their Government with all the money it required and a sufficient amount over and above its requirements to enable it to grant credits to Great Britain and other countries. Year after year the Canadian people furnished the Dominion Government with sums far in excess of the total of Canada's national debt before the war.

This not only contributed greatly to Canada's strength during the war, but since. Tens of millions of dollars which otherwise would have been drained out of the Dominion in interest payments have been distributed among our own people. The cutting of interest bearing coupons has become a commonplace in homes all over the country.

What was proven to be good policy for the Dominion as a whole is being recognized throughout the Prairie Provinces of Canada as good policy for this western country; hence we find that the Governments of Manitoba, Saskatchewan and Alberta have all devised schemes whereby those of their people who have money to invest may lend it to their respective Governments on gilt-edged security and these Governments re-lend it to those of their people who are in need of money for development and productive purposes within the Province. As a result, not only is Western money kept in the West, and interest payments thereon paid by Western people, but the money is put to work in the West to further its development and increase its prosperity. And Governments are placed in funds without being obliged to go solely to Eastern and to foreign markets and remit large sums in interest payments to points outside the Province.

Nor is this healthy development, this adding of financial strength and independence to the West, being confined to Provincial Governments. Municipalities are appealing to their own citizens and ratepayers to become the holders of municipal debentures. A gratifying measure of success is attending these efforts—Regina being a notable example where several municipal bond issues have been fully subscribed for by its own citizens.

As a matter of historical fact, even before the Dominion Government adopted the policy of floating popular Victory Loans, the Government of Saskatchewan had inaugurated the policy of going to its own people to provide the money necessary to carry through its Farm Loans plan, and in its appeal upwards of one million dollars was received. Then the Dominion Victory Loans were inaugurated and the Saskatchewan Government withdrew its appeal and held it in abeyance so as not to conflict with the war finance programme of the Dominion. With the war over, and the necessity for Victory Loan campaigns removed, Saskatchewan is again energetically pushing the sale of Farm Loan debentures to its own people.

It is good policy for a citizen to buy the bonds of his own Province or municipality. Unlike the big financial corporations, it is not a money-making venture on the part of these public bodies, nor is the money merged in the intricate and costly financial system of the whole country and the world. The system is administered at cost—the lender receiving the highest possible interest rate and the borrower securing his loan at the lowest possible cost.

Through this simple machinery the West is being made more and more economically independent of the East and the big financial corporations, its money is being kept at home, and it is actively at work promoting the further development of the country and increasing the prosperity of all.

An Appalling Condition

Invariably results when you use a cheap corn salve. Be judicious, use "Putnam's," for fifty years it has cured corns and warts that nothing else can touch. Ask for Putnam's Painless Corn Extractor, only 25c at all dealers.

Disinfecting Fluid From Electricity.

For many years past a local authority in London has been manufacturing disinfecting fluid by electrical means. This enterprise is carried out by the Public Health Department for the benefit of the citizens. The fluid is used in the public baths and in the sick asylums and other public institutions. Any resident is supplied with the fluid free if he brings a bottle to be filled. Nearly seventy thousand gallons are distributed in a year, and the cost is only one half-penny per gallon.

Some people haven't any influence even with themselves.

The tulip tree sometimes attains a height of more than 100 feet.

Few Can Sit Still

The Reason Why So Many People Are Restless.

It is a strange fact, but true, that few men or women can sit or stand perfectly still, and few of us are perfectly comfortable when walking, unless we carry something. Hence walking sticks and gloves. Here and there one meets someone, usually a woman, who has really mastered the art of sitting quite still while talking or listening, and a very attractive art it is. Why is it that some little movement helps to remove the feeling that our hands are in the way? Is it because movement requires thought, and while we are thinking of the movement we are making it, not worrying about our clumsy feet or hands? This may be partly the reason, but most likely little actions make us feel more comfortable because they have some effect up n the circulation of the blood, and so indirectly upon the nerves, which are really the cause of the trouble and the remedy as well.

The Suffering Children of Europe

Organizer For League of Red Cross Societies Tells of Need of Europe's Orphans.

"While we at home are intent on industrial expansion and a place in the sun, Europe in its war-weakened condition is fighting for its very existence," said Donald W. Brown, director of the department of organization in the League of Red Cross Societies of the World, which has its headquarters at Geneva, Switzerland. He visited Toronto to learn the peace program of the Canadian Red Cross Society and to establish closer contact between it and the league.

Having just arrived from Europe, Mr. Brown was able to give the Canadian Red Cross some first hand information concerning the people of Europe. He called attention particularly to the condition of the children, so many of whom are now orphans. While the exact number who have lost one or both parents during the war cannot be determined, the most conservative estimate places the number at over ten millions. This number seems quite consistent with the heavy war casualties among so many nations.

The condition of these children is in most cases very pitiable. Many of them have no homes and they are dependent upon whosoever may be charitable and kind enough to help them. But there are few who are able to give such help, for the mass of the people of Poland, Galicia, parts of Roumania, Czecho-Slovakia, Jugo-Slavia, and other countries are so poor that they have not necessaries for themselves. Consequently in the great area between the Baltic, the Black and the Adriatic Seas, there are millions of children who face the next few years, and particularly the coming winter, without hope of decent food and care unless outside assistance is given them. The vitality of these children is already low on account of their having been deprived of fats, milk and sugar when they most needed them, and they are therefore very susceptible to children diseases, particularly rickets.

In addition to the unhappy condition of the children the adult populations are in the direst of misery on account of disease. Suffering has been accentuated by lack of food and clothing, nursing and medical attention, and tuberculosis, smallpox, typhus and dysentry are continuing unchecked.

Typhus, which has so often proved a scourge and menace to the human race, is again prevalent, and unless checked will most likely extend its ravages to an alarming degree.

For these urgent reasons, Mr. Brown said, the League of Red Cross Societies has made an earnest appeal to the people of the British Empire and he was glad to hear that the cause of the suffering children was being taken up in Canada. He had learned that an appeal on behalf of the British Empire Fund would be made in Canada by the Canadian Red Cross during Armistice week and wished for it every success.

CHILDHOOD AILMENTS

The ailments of childhood—constipation, indigestion, colic, colds, etc.—can be quickly banished through the use of Baby's Own Tablets. They are a mild but thorough laxative which instantly regulate the bowels and sweeten the stomach. They are guaranteed to contain no harmful drugs and can be given to the youngest baby with perfect safety. Concerning this Mrs. Adelaide Lepine, Ste. Beatrix, Que., writes:—"Baby's Own Tablets were of great help to my baby. They regulated her bowels and stomach and made her plump and well." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Basques of Spain claim to be the oldest race of Europe.

Good For Asthma. Asthma remedies come and go but Dr. Hamilton's keeps on selling. Ever since the sales of the original Dr J. D. Kellogg Asthma Remedy kept up. No further evidence could be asked of its merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack but get this splendid remedy to-day.

Germany Will Keep Kiel Canal Open.

Germany—according to despatches submitted to the council of ambassadors, will strictly observe the allies' interpretation of the clause of the peace treaty providing that the Kiel Canal shall be free to international traffic. This is a reversal of the German Government's previous attitude under which vessels carrying arms to Poland were stopped.

Dancing Mania in the Arctic.

The Jazz fever has broken out among the Eskimoes of the far north. Mounted policemen report that dancing occupies all the spare moments of the northerners, and that a great igloo, presumably of ice, has been built on Coronation Gulf, for a dance hall.

A European florist has found that plants can be forced by immersing their leaves and branches in hot water while the earth is kept dry.

The total number of blind persons in the world is estimated at 2,390,000.

Minard's Liniment For Colds, Etc.

SUNDAY SCHOOL LESSON

LESSON FOR NOVEMBER 14.

THE POWER AND AUTHORITY OF JESUS.

In chapters 8 and 9 are grouped a number of miracles which exhibit what the King can do over the chief foes of mankind—sickness, sin satanic power, death, sorrow and storms. It is fitting that they should be arranged here, following the laws of the kingdom, for they show the King's power to administer the affairs of the kingdom, and produce within his subjects the graces of character set forth in these laws. It will make the lesson too long to attempt to consider all these miracles. It will also be unsatisfactory to confine ourselves by the lesson committee, so we will select several of the most outstanding ones.

I. Jesus Heals a Leper (8:4).

1. This dreadful disease was the most loathsome and hopeless known. In the Jewish ritual it was regarded as a symbol of sin. It was incurable by man. Only the Divine Physician can cure sin.

2. The leper's faith. His cry was most pitiable, but his faith was strong. He fully believed that Jesus was able, but was uncertain as to his willingness to heal him.

3. Jesus' power. He put forth his hand and touched the leper, bidding the disease to depart, and instantly the man was clean.

II. Jesus Heals the Centurion's Servant (8:5-13).

1. The disease—paralysis. In Palestine the victim is helpless and disqualified for service.

2. The centurion's faith. He believed that if Jesus would but speak the word his servant would be healed.

3. The wonderful power of the King. He did not need to go to see the centurion's slave and touch him, but only needed to speak the word and it was done.

III. Jesus Calms the Sea (8:23-27).

1. The King asleep in the storm-tossed boat (v. 24). Since the King is the Almighty Creator, he had no reason to fear, and therefore, could well be resting in sleep.

2. The terrified disciples (v. 25). If they had but known him as really the Almighty King they would not have been terrified, for they would have known that no boat could go down with the Christ on board.

3. The King's rebuke (vv. 26, 27). (1) The disciples rebuked for their lack of faith. Instead of looking at the Lord, they were looking at the circumstances. (2) The sea is made calm. The elements of nature are subject unto him.

IV. Jesus Casts Out Demons (8:28-34). After stilling the tempest Jesus crossed to the other side of the sea into heathen territory.

1. Met by two men possessed by demons (v. 28). By referring to Mark 5:1-7 and Luke 8:27 we get a conception of the desperate condition of these men. So fierce were they that no one could safely pass that way.

2. What they knew about Christ (v. 29). They knew that he was the Son of God and that he had come to destroy the Devil and his works.

3. The limitation of the Devil's power (v. 31). Although the Devil is mighty, he cannot even enter a hog without God's permission.

4. Christ's power to deliver from the Devil (vv. 30-32). The demons quailed before him and dared to disobey his mandate, but begged permission to enter the same.

V. Jesus Healing a Woman With an Issue of Blood (9:20-22).

1. Her helpless condition (v. 20). She had been a great sufferer for twelve long years.

2. Her faith (v. 21). Her faith was so strong that she believed contact with the Master's garment would secure the needed help.

3. Her confession (v. 21; cf. Luke 8:47). Jesus had her make a public confession. It was for her good that he had her make this confession, for faith in Christ unconfessed, will naturally weaken.

4. Christ's words of encouragement (v. 22). He told her that it was her faith, not her touch, that saved her.

A Crown of Sorrow.

A Topeka woman says the worst sensation is that feeling of "growing old" when one is asked to chaperon a party of "young folks" when there are several in the party older than the chaperon is.—Kansas City Star.

The greater part of Northern Manitoba was once covered with a much heavier forest than that now existing there. The old forest was destroyed by fire many years ago. The present forest consists principally of second-growth.

If you don't like the rules of the game—start a game of your own.

An Always Ready Pill.—To those of regular habit medicine is of little concern, but the great majority of men are not of regular habit. The worry and cares of business prevent it, and out of the irregularity of life comes dyspepsia, indigestion, liver and kidney troubles as a protest. The run-down system demands a corrective such as Parmelee's Vegetable Pills. They are simple in their composition and can be taken by the most delicately constituted.

THE REAL TEST
of home baked food comes when the second helping is offered. The appearance, texture and taste of food raised with
MAGIC BAKING POWDER
is bound to be pleasing and satisfactory in every sense. Magic is an economical and healthful leavener, and because of its uniformity in strength and results, has justly earned its reputation of being Canada's Perfect Baking Powder.
Send name and address for free copy of "The Magic Way" containing selected recipes, many of which are illustrated in colors.

Road Engineering Progress

Britain Still Maintains Great Interest In Road Improvements.

In view of the rapid development of road traffic in Great Britain an inspection has been carried out over more than one thousand miles of the principal roads, and careful examination made of the experimental lengths which have been laid on various novel systems of construction. It is anticipated that a sum of at least ten million pounds sterling will be spent within the near future on road making and road improvements. British roads have enjoyed the reputation of being the best, all-round, in the world, and there is every sign that the new methods devised by British road engineers to enable road surfaces to withstand heavy motor traffic will maintain that reputation.

Minard's Liniment For Distemper.

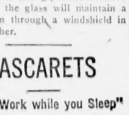
Against Use Of Dum-Duns.

Premier Lloyd George, in the House of Commons, stated that the Government was considering special legislation to deal with the use of dum-dum bullets in Ireland, where the police and the military had suffered appalling wounds from them.

An alcohol and glycerine solution rubbed on the glass will maintain a clear vision through a windshield in rainy weather.

CASCARETS

"They Work while you Sleep"



You don't know whether you are "coming or going." You are bilious, constipated. You feel headachy, foul of cold, dizzy, unstrung. Your meals don't fit—breath is bad, skin sal ow. Take Cascarets tonight for your liver and bowels and wake up clear, energetic and cheerful. No griping—no inconvenience. Children love Cascarets, too. 10, 25, 50 cents.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Let "Danderine" save your hair and double its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair, a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage.

Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with a glossy golden gleams and tender lights. The youthful glints, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as a dressing and invigorator as told on the bottle.

Labor Objects to Tax

Luxury Tax on Some Things Has Led to Unemployment.

Not the manufacturers themselves, but the ranks of organized labor are now endeavoring to secure the removal of the luxury tax on certain kinds of production, basing their action upon the ground that its imposition has led to a great deal of unemployment.

The delegation pointed out that more than 650 men employed in these trades were at present out of employment in Toronto, and stated that the manufacturers had given as their reason for shortened production of these articles of trade that the people would not buy them with the added cost due to the imposition of the luxury tax.

Uber Alles No More

"Deutschland, Deutschland Uber Alles" is dead in Germany. Some day, phoenix-like, it may rise again, but at present it is embalmed. It costs money to hear it in Berlin. The police have put their taboo on it.

Since Prince Joachim Albrecht of Prussia spent a few days and nights in jail for having the Adlon Hotel restaurant orchestra play it, which resulted in numerous broken dishes, the tune is rarely heard.

Self-Love.

The man who loves himself more than he loves other people is likely to find that he loves himself more than other people love him.—Youth's Companion.

A Decided Aid to Digestion

About one half the meat you eat is wasted because you can't digest it.
This is detrimental to health.
Keen's D. S. F. Mustard
counteracts the "sickness" of the food, cuts the fatty, indigestible tissues, and makes it easily assimilated.

Use Keen's D. S. F. Mustard today—and every day

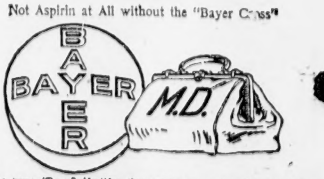
ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"



The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

The boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Storm Sash

JOTTINGS OF TOWN AND DISTRICT

Local News.

Wm. Patterson left Monday on a visit to relatives in Iowa.

Ed. Schuldt is enjoying a visit from his brother, Harry, of Washington.

Martin Christensen has gone to spend the winter in California.

J. J. Walker, of Swathmore, Sask., is visiting with his brother, Rev. W. S. Walker.

A number of our citizens visited Calgary last week, the theatre being the attraction.

Several of our teachers attended the convention, held in Edmonton last week.

The nursing staff of the Wetaskiwin City Hospital desires to thank the members of the Anglican Church for the kind donation of fruit received. A similar contribution was received from the Anglican Church at Wetaskiwin.

Hans Rohwer and family left on Friday to spend the winter in California. They have been doing this for several winters past, and apparently it agrees with them. They will be back on the farm ready for the spring work.

L. M. Webster has purchased Karl Kirkwood's interest in the tinsmith business and has moved his family from South Edmonton. Mr Webster is an old Ponokaite, and has many friends who will wish him success in his undertaking.

A number of big game hunters left for the north on Monday, and with the fall of snow, good sport should be enjoyed. Much interest is being evinced in this big game hunting, and by the close of the season on December 15th, many local parties will have gone north.

The town tax sale was held in the town hall on Saturday. There was a small attendance, and bidding was slow. The property sold went cheap. Saturday, the 13th, the Fertile Valley M.D. tax sale will be held at the town hall, when there will be an interesting sale.

As sequal to the Hallowe'en depredations, a number of young men were up before the magistrate last week and fined. While everybody likes to see the young folks enjoying themselves, this destruction of property must be put a stop to. Now, boys, be careful by another year.

EKLUND.—On Sunday, Nov. 7th, to Mr and Mrs A. Eklund, a daughter.

HINKLEY.—On Monday, Nov. 8th, to Mr and Mrs James W. Hinkley, a daughter.

NIXON.—On Monday, November 1st, to Mr and Mrs Nixon, a daughter.

A chicken supper, in cafeteria style, will be given in the Empress Theatre on Wednesday, November 17, by the ladies of St. Mary's W.A. Supper will be served at 6 p.m., and will be followed by a whist drive for which an entrance fee of 25c will be charged.

Eastside ladies will serve in the Rest Rooms on Saturday.

A miscellaneous shower was given to Miss Iva Morgan at the home of Mrs Lee Watson Monday evening. There was a large attendance of friends, and a very happy evening was spent.

Snow came on Thursday night, and apparently it is going to stay. While it might have held off a little longer, still there is much to be thankful for. It has been a dandy fall, and much outdoor work has been done. Crop all threshed, hay up in good condition, and a good deal of plowing and breaking done, the farmer will not be anxious over his spring work. And so it is winter: the season for social intercourse. The young people will have their socials, the ladies their whist drives, and the men will keep the curling rink busy, or enjoy a game of solitaire. Thus the winter—the gay season of our community—will be spent. Why then be a flock of geese and hike for another clime?

A meeting of the Ponoka Curling Club was held in the Town Hall on Friday evening—President Durkin in the chair, and there was a large attendance. The first business was the election of officers, and after a keen contest it was found that John A. Kerr had been elected president, Harry Small 1st vice-president, C. H. Cunnings 2nd vice-president, Rev. Chas. Bishop chaplain, and Sidney Bird secy. Fourteen of the best players were chosen as skips, and they will select the rinks. While several old players will be absent, due to their leaving town, there are a number of new members, and it is expected that the membership will be larger than last year. Of course the curling rink is too small, but a little inconvenience will be overlooked. The ladies are to have the rink every afternoon except wash and ironing days. So, we await the coming of the ice, then "out-turn!"

All intending curlers are requested to hand in their names to the secretary, S. Bird, before the 15th of November.

Grand Meadow Local, U.F.W.A., will serve a cafeteria supper in Grand Meadow schoolhouse on Tuesday evening, November 16th at 8 p.m. Mr Rice Sheppard will give an address after the lunch.

The C.G.I.T. will hold a basket social in the town hall on Friday evening, Nov. 19th. Prizes will be given for the best basket. Ladies please bring baskets. Everybody welcome.

On all trimmed Hats at the Ponoka Millinery store a discount of 25 per cent. will be given.—Mrs E. G. Headley.

A fowl supper and first-class entertainment will be held in the Presbyterian church, Moonlogside, on November 12th. Supper served from 7 o'clock. Adults 50 cents, children 25 cents.

Love of The Wild

— BY —

ARCHIE P. McKISHNIE

Printed by Special Arrangements with Thos. Allen, Toronto, Ont.

(Continued)

He sat down on a stool and started to unlace his moccasins, whistling an old time beneath his breath. Boy arose and, walking to the window, gazed out across his kingdom. An owl was hooting from a distant thicket. Down in the deep shadow a fox called, and from the sheep-corral came the soft bleating of a lost lamb. The chickens in the coop stirred and voiced their uneasiness. Outside on a well-worn spot a dog stretched himself, arose and sniffed the breeze, then assumed his former position.

Boy turned to the long cupboard near the hearth.

"Seems I can't be myself these days," he said. "I forgot that you might be hungry after your tramp about to-night. Set up, Bill, and have a bit of turkey."

He placed the carcass of a cold fowl on the table, and from the milkhouse outside fetched bread and butter. Paisley drew his stool up to the table.

"Ain't you eatin'?" he asked.

"Not hungry," answered Boy. "Seems I ain't like anythin' I used to be any more. All day long I've been thinkin' about a lot of no-count things that happened years ago. Little things I've done and seen here in the bush. How I tramped with Davie 'cross the ridges and down through the wild blackberry patches. Why, Bill, it seems, some nights, when I'm lyin' awake, that I can see everythin' just as plain as I saw it then. Last night I was listenin' to the canoe sweepin' against my skiff. My oar was poked in a bog and my boat painted was tied to it. I was trollin' with a live minnie, and the creek was a clear bottle-green. The pond-lily roots lay there six feet below me, and the bass swam in and out—you know how they did before the mill was up, Bill?"

Paisley nodded and looked back over his shoulder. His mouth was full of turkey and bread.

"And as they'll do again," he asserted in muffled tones of conviction.

"I was gettin' strikes and playin' bass," smiled Boy; "playin' and landin' 'em and enjoyin' it all. Davie was there, and Goss was there. We all talked and laughed together. He was real, I tell you, Bill. It wasn't a dream, 'cause my eyes was wide open. That sort of thing scares me. I don't understand it."

Paisley put his hand on Boy's knee.

"I know what's doin' in all," he said. "I know just what's doin' to you. You're worryin'. That's what you're doin'. You shouldn't, 'cause Hallibut and his gang ain't goin' to get this bush, not by a danged sight. You're thinkin' that you won't fish no more like you used to; that you and Davie won't tramp together no more in your own little world. But you will. You'll always own it, Boy. You take old Bill's word for it, you ain't got nothin' to worry yourself sick about."

"Somehow I feel sort of helpless," sighed Boy. "Maybe I'm a coward, 'cause I feel like hidin'; only the fight in me makes me keep to the open. You've seen a young partridge when you walked upon him unexpected-like. The little beggar just grabs a leaf and turns over on his back, holdin' the leaf over him. You and me know where he is, because we see the last leaf movin' after we've left nobody who ain't a Bushwhacker could find him Bill."

"And like him, you naturally want to lay low, eh, Boy?"

"Yes, as though I want to cover up; not because I'm scared, but 'cause it seems the natural thing to do. Then I get over that feelin', and the next thing I know I'm carryin' my rifle at full cock and keepin' a lookout. I don't know how this is goin' to end, Bill. I sure don't."

Paisley stood up.

"Boy," he said earnestly, "you'd best be careful what you do. Don't you fire first. I ain't advisin' you to leave your rifle on the rack, but you know that us Bushwhackers don't shoot to scare. Ammunition's too scarce for that. If you was to kill one of Hallibut's gang now, it would make things bad for us all."

"The traps ain't set and the rats have left their houses," said Boy drearily. "All along the creek are dead runs, and there's no use trappin' there. The ducks have left our shores and they've gone to the Polo grounds. There's nothin' here, Bill, but the clash and buzz and whistle of that mill. The turkeys don't come on the ridges like they used to; the deer stay back in the swamplands; and all through this woods them sounds are chasin' the fur and game further back. And now he's goin' to send his schooner in here. Think of it, Bill. He's goin' to sail across the bay and up Lee Creek for his lumber. Old Noah was here this mornin' and he told me. He's goin' to work for Hallibut, too, and I can't understand that."

"What's the old Injun goin' to do?" grinned Paisley. "He can't work—he's too old."

"He's goin' to watch the boat. It looks as if Hallibut's afraid we'll burn her. I don't know why he should think that, but Noah says it's better for him to be on the boat than anybody else. And he's right. He didn't tell me mischief you know what a silent old feller he is. But I know he's been over to see Hallibut. Noah isn't against us; he thinks too much of Gloss for that, but there's somethin' he knows that we don't know. I see him watchin' Gloss a lot. I'd give a good deal to know just what's in his mind, Bill."

"Why, there's nothin' in his mind, Hallibut said, 'Old Injun, do you want a job standin' watch on my boat when I send her down among the Bushwhackers?' and Noah he says, 'Much good.' Noah knows that he can watch Hallibut that way better than we can watch him. Of course, I don't mean to say Noah would be traitor to any man he worked for—not both know he wouldn't. But he's there to watch things for us as well as Hallibut's."

"Colonel Hallibut's comin' for more than his own," said Boy gloomily.

Paisley stretched his long arms.

"Well," he laughed, "I've picked posies when bees have been workin' among 'em. They didn't molest me any—not them. Once though, I dusted a little chap with flour and trailed him down to his tree. I was hungry for honey, and wanted to hog it. When I started to cut down that beetree I found Mr. Bee, who was quite a good feller among the posies, somethin' of a hell-terror when it come to protectin' his own. It learned me a lesson. Now, when I hanker for honey, I get a piece of maple-sugar and eat that. We can't stop Hallibut from comin' up Lee Creek, but we can stop him from hoggin' our homesteads out of us; so we won't worry any more. Come on, b-d, Boy. Mornin' will come right soon, and we've a lot of traps to set."

Boy picked up the candle and led the way to the loft.

"My, but it's a grand place to stretch yourself out and enjoy rest, this," said Paisley, stooping low to keep from bumping his head on the roof. "You should sleep like a baby up here, Boy. You are sure should."

"I used to," said Boy. "Maybe I'll be able to again. It's restful all right, Bill, to lie here and listen to the rain patterin' on the roof. And in the summer the leaves play little tunes on the thatches. Once Joe chased a wild-cat across the open and he treed up here. I tried to scare him away, but every time I struck the roof on the inside he would spit and snarl out there on the outside. I had to get up and shoot him at last."

"Sure," said Bill dreamily.

He had stretched himself out on the willow bed, and already healthy sleep was wooing him and leading him from the late day into strange by-paths of dreams which he never remembered.

CHAPTER XVI.

Preparing For The Loggin'.

Next morning at break of day Paisley and Boy, laden with rat-traps, struck out toward the creek. Big McTavish accompanied them as far as the stable and gave them a parting send-off.

"If I had the chores done I'd go along and show you fellers how a real trapper sets a trap," he said banteringly, "but I hear old Buck and Bright askin' for their breakfast, so I can't go. I want that pair of oxen to be the best at Declute's logging. They have a reputation to keep up."

"Don't think you can drive oxen any better than you can set rat-traps," returned Paisley. "Jim Peeler says his oxen can out-haul Buck and Bright any day."

"And Declute says he never caught a single rat in the traps you set for him," scoffed Boy.

"Get along with you, you scamps," laughed the big man.

He passed into the stable and, slapping the hungry and expectant oxen lovingly, spoke to them as was his habit.

"Buck, you moon-eyed old beggar, I want you to pull to-morrow like you never pull'd before. You heard what Bill said about Peeler's oxen? Well, Peeler can't out-pull us. I guess not." He reached across the stall and patted Bright's broad shoulder.

"As for you," he said, "course you'll do your best. If you don't, Brighty, you won't feed you any corn for a whole day."

He filled the mangers with fragrant fodder and passed out. The glorious morning was shouting up above the fringe of Point Aux Pins. From the pine woods a billion diffused arrows of light were glancing, and, striking the bosom of Rond Eau, darting upward again toward a sullen arch of cloud where they clung and mingling with it painted a glorious border of orange and crimson. A rooster, high on a stack of cornstalks, flapp'd his wings and proclaimed his gladness. Down in the second growth beeches a brood of feeding quail were whistling, and out above the creek a blue kingfisher stood poised, then dived, a streak of turquoise on the air, for the fish his bright eyes had sighted.

McTavish looked about him, smiling and whispering to hims lf. At the dog-kennel he paused and accosted the setter.

"So you're tied up, eh? Wanted to follow the boys, did you, Joe? Well, we'll let you free now to go where you please."

(To be continued)

Palestine's Food Shortage.

The serious food shortage in Palestine has led the government to prohibit the export of cereals. From 400 to 500 head of Sudan cattle are being imported monthly by arrangement with the Egyptian and Sudan Governments. The army has ceased purchasing sheep and cereals from Palestine.

In some of the cities of Europe a dog is taxed according to its size—a little tax for a little dog and a big tax for a big dog.

Be Your Own Doctor.

When you meet with an accident —a cut, a burn, a scald or a bruise —don't spend time needlessly in doctor's bills, but apply Zam-Buk at once. This herbal balm will end the pain, stop the bleeding, prevent festering and heal quickly. Keep a box handy.

For skin troubles Zam-Buk is equally invaluable. A skin disease cured by Zam-Buk does not break out again, because Zam-Buk cures from the "root" up.

Zam-Buk is best for eczema, boils, blood-poisoning and piles. All dealers 50c. box.

Zam-Buk

Increase Production of Penitentiary Industries

Proposal for Utilization of Convict Labor to Obtain Revenue.

An increase in the producing activities of the penitentiaries of Canada is said to be among the reforms which are being considered by the commission which is now enquiring into conditions with a view toward reform. The proposal would involve the utilization of convict labor in the manufacture of clothing, boots, etc., coupled with an extension of truck garden and fruit growing activities. A daily allowance would be made to the convicts, to be paid to their dependents, if any, or kept until the term of the particular prisoner had expired. This scheme has been worked with marked success in certain of the state penitentiaries across the line. In fact in some cases the production and revenues therefrom have been so great as to pay the expenses of the institution and contribute considerably to the state treasury.

The scheme, if adopted, must be such as not to seriously compete with the ordinary labor market. A further reform proposed is said to be the doing away with the locking up of convicts on holidays which fall upon a Monday. In such cases at present, incarceration for two consecutive days results.

Severe Penalty For Killing Tigers

Sumatra Needs Man Eater to Save Her Best Trade.

The natives of Sumatra were greatly excited when the Dutch governor forbade them to kill tigers under severe penalties. It was hard to convince them of the necessity to protect the terrible man eater. The most important industry of Sumatra is growing oil palm trees, and it was threatened by the increase of wild boars, which prefer the fruit to all other food, killing the trees with their tusks. The more tigers killed, the more wild boars there were. The tigers like wild boar meat better than any other, although it kills also cattle.

Under such circumstances, the government decided to protect the tiger to save Sumatra's main industry.

Want Embargo Lifted

Farmers of Scotland Think Embargo Against Canadian Cattle Should Cease.

Farmers of Scotland are becoming of the opinion that the embargo against Canadian cattle should be lifted, according to a number of letters that have been received by W. F. Stevens, secretary of the Western Stock Growers' Protective Association. "Unless we can get stores in unlimited quantities, many of the present feeding farms will have to be converted into breeding farms to maintain the supply of commercial animals," states W. J. Reid, of Dun, Forfarshire.

New Head to Research Council.

It is stated that President MacKenzie, of Dalhousie University, Nova Scotia, is the choice of the Dominion Research Council for the position of head of that body, left vacant by the resignation of Dr. MacCallum, who goes to McGill. If President MacKenzie will accept the position, it is stated, he can have it. It is understood that Prof. McLennan, of Toronto, whose name has been prominently in connection with it, would not have accepted.

Too Many "Generals" In Mexico.

Because of the large number of "generals" who refused to be demobilized and insisted on being retained with their present rank, the Mexican War Department is reported to be having trouble cutting the army down to 50,000 men. Advices say that the war department's budget for the coming year is a large one.

When a person employs a servant in Mexico, it is expected that the servants' entire family will reside with the employer.

Manitoba's Wheat Yield

Average Yield Per Acre For 1920 Given As Fifteen Bushels.

The average yield of wheat per acre in Manitoba for 1920 was 15 bushels, according to the final report of the department of agriculture for the year. Threshing is completed with the exception of a few fields of flax, according to the report. Much fall plowing has been completed and the land is in fine shape for next spring's work. The supply of winter feed will meet all requirements.

Following is a summary of conditions, as issued by George C. Batho, of the Manitoba Department of Agriculture:

"Threshing is practically all finished in Manitoba, although a few scattered lots of flax are yet unthreshed. Now that threshing is done, reports of correspondents as to yields should be fairly accurate. The averages of all reports submitted are as follows: Wheat just below 15 bushels; oats, 33 5-6; barley, 22 1-10; flax, 8 2-5; rye, 16 1-5; potatoes just over 100. The potato crop is all dug.

"October has been a very fine month, and, on the whole, the conditions for plowing have been excellent, and a larger area—in some places a much larger area—than usual is plowed. Several correspondents report that summerfallows are particularly satisfactory.

Quick Aerial Service Across Canada

Could Be Accomplished With Aerodromes and Wireless Outfits, Says Tylee.

With aerodromes marked out every 50 miles and with wireless control of the planes, there would be nothing to prevent a regular forty-hour air service between Halifax and Vancouver, according to General A. K. Tyles, air commodore, who reached Ottawa recently on his return from the trans-Canada flight. General Tyles flew from Winnipeg to Vancouver as a passenger during the recent flight and returned to Ottawa impressed with the possibilities of developing a commercial cross-Canada service.

Protect Your Machinery

Loss Would Soon Pay For Erection Of Shed.

How many farmers would leave $25, $30 and even $100 in bills out in the open during an entire winter? Sounds absurd, but scores of such bills, in their equivalent of farm implements, are left in the shelter of the broad skies all the year. Few farmers who follow this practice do so with a realization of the great loss they are sustaining on the money invested. A hundred dollar machine left out of shelter over winter, means a loss of from five to fifteen dollars. At this rate it is quite evident that a machinery shed would be paid for in two or three years, even at present building costs.

Bottle Takes Long Journey.

A bottle cast into the Atlantic Ocean near Newfoundland by Sergeant D. McInnes, of Edmonton, when returning to Halifax, September, 1919, after shooting at Bisley, reached Nieuport, Belgium, last August. The bottle contained a message from Sergeant McInnes to a Montreal paper. The finder of the bottle was Paul Vanthier, who mailed the message to Montreal.

A Sympathy Swindle.

An Englishman has just been arrested in London for swindling the relatives of dead soldiers. His plan was to read the death notices in the papers and to write letters to any ex-soldiers that might be on the list, asking for gifts of clothing. The bereaved families, glad to do an act of charity to an "old friend" of their lost son, would send the clothing and frequently important sums of money. —London Graphic.

A wounded chimpanzee stops the bleeding of s the wound by placing leaves and grass on the injury.

By Speeding the Liver Dr. Hamilton's Pills Bring Good Health

Good for Men, Women, Children.

No curse seems harder to bear than the downright weariness and despondency that comes from a slow liver.

The man or woman who is pale, sallow, depressed, and out of sorts usually has Liver Complaint. Such people continually suffer from headache, constipation, ringing ears, lack of appetite, and poor digestion. What a world of good Dr. Hamilton's Pills will do in such cases! In one hour this smooth working medicine changes half sick folks into different looking and feeling people. No chance for headaches or costiveness when Dr. Hamilton's Pills get to work. Taken at night they restore normal conditions while you sleep, morning finds you fresh and hungry, headache all gone, cheeks rosy, eyes bright, spirits good.

Impossible to feel dizzy, to have weak back, to be nervous, depressed, sleepless, or out of sorts if you tone, regulate and cleanse the system with Dr. Hamilton's Pills. Good for men, women and children. Sold everywhere in 25c boxes.

You get the full weight of tea marked on the sealed Red Rose package.

The tea is weighed on our costly automatic electric scales before it goes into the package.

In the sealed package, you get not only full weight, but full flavor, full strength and all the good qualities of Red Rose Tea protected against the air, odors and dust.

RED ROSE TEA is good tea

Red Rose Coffee is as generously good as Red Rose Tea

Be An Optimist

Show Patriotism By Having Faith in Canada.

Canada is emerging from the after-war muddle with the sun of prosperity shining bright over her broad domain. Her barns are bursting with the foodstuffs for which the older countries hunger. Her gold and silver mines are pouring forth th ir riches. Her almost inexhaustible deposits are daily taking on new values. Her frozen north is seeping with oil that will feed the millions of autos for five hundred years to come.

Canada is coming back to normal —coming fast—coming also to a great period of prosperity.

Hasten its coming by drowning your pessimism.

Prove your patriotism by becoming an optimist.—Toronto Telegram.

A patent has been granted a Connecticut inventor for a slight but sufficiently strong structure to be erected over city buildings to form an airplane landing field.

The bean was cultivated by the Incas before the time of Columbus.

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

To Can Whitefish

Canning Will Give Industry An All Year Market.

Canada is to add whitefish to the world's appetizing canned foods. A factory for canning the whitefish of Northern Canadian lakes is to be established on Lake Athabasca, Alberta. Whitefish swarm in these northern waters, but owing to lack of transportation and refrigerating facilities, they supply only a winter market. They are taken in nets lowered through holes in the ice, where they are frozen in temperatures that make all outdoors a refrigerator. They are hauled on dog-sleds to the railway and shipped all over Canada. A United States market has been established in Chicago and other western cities.

In summer the industry is suspended because the fish spoil before they can be got to market. Living in ice-cold water, the whitefish of the Canadian north have a finer flavor than those of the more southern latitudes. Canning them will give the industry an all year market. Whitefish are one of the most extensively marketed of fresh-water fish. Vast quantities are taken in the Great Lakes and shipped all over Eastern Canada and the United States, even in summer.

Brita'n After the Toy Trade

Have Launched a Big Campaign to Supplant Foreign Toys.

British toy makers have launched a big campaign to supplant foreign toys in the British markets, and since the war a large number of new firms have begun manufacturing and old ones have extended their production. The campaign is being conducted by the British Toy Association, which has branches in all of the principal cities in the United Kingdom where the toy and game industries are prominent. Special advertisements are being inserted in the leading magazines and newspapers, calling attention to the comprehensive range of toys now being manufactured in Great Britain and urging the British public to give preference to British-made goods.

The custom of using a coat of arms is traced to early Biblical times.

"Stands Strenuous Wear"

From the Diary of A Hudson's Bay Clerk in the Seventies

By O-GE-MAS-ES (Little Clerk).

(Copyrighted)

After a hard winter at Sturgeon River, an outpost from Cumberland House, I at last shipped the winter's fur by York Boat to headquarters; and now for my holiday as I had planned, a hunting trip up the Sturgeon. The party was to consist of an Indian and his family in one large bark canoe and myself in a small bark just large enough for one man and his outfit.

At last we were off, and I looked back at the log shacks we had wintered in with delight at the thought of never seeing them again; for, gentle reader, it had been a hard winter, the chief diet being fish both for men and dogs. We tracked or killed no venison. One amusing incident helped to break the monotony. About the month of February, if my memory is correct, a dog-train with two weather beaten travellers arrived. One of these (Owen B. Hughes) was the first Sheriff of Prince Albert in later days and his companion, a native named Kennedy. At that time Mr. Hughes was in the employ of Siobart, Eden & Co., fur traders, and was travelling from Norway House to Duck Lake. Their snowshoes were worn out and needed re-netting, so the men's wives were set to work at this and Mr. Hughes became my guest." That first evening we had suckers, dried and smoked, nothing else but black tea with plenty of sugar, and I am sure he polished off at least half a dozen. For breakfast, appeared a fine dish of plain boiled suckers, taken out of the nets that morning, for we kept five nets under the ice all winter, catching, however, nothing but large red suckers until spring when sturgeon came in shoals. I could see Hughes casting hungry glances round the tab'e, but he was too well-bred a man to say anything. For dinner a huge platter (of the old China Willow pattern) with at least twenty sucker heads on it, these, by the way, being much the best part of that fish. Hughes glared at me, shoved his chair back, used some strong western epithets as to the way the Hon. Co. fed their clerks, then yelled, "John!" in stentorian tones. John duly appeared. Go to our sleigh and bring such and such articles of food. My, but we did feast, and then I explained the situation. Flour being short that winter, I was limited to a clerk's allowance of two hundred pounds. This I would not eat alone, so just used bread on Sundays, my two men and their families sharing it with me. In after years, meeting Hughes in Prince Albert, we had many a good laugh over this experience.

Our commissariat for the trip was very limited; a small stock of maple syrup which we had obtained by tapping the ash-maple trees in the vicinity, a bale of dried fish, four pounds of tea, a little salt and sugar, with a few pounds of flour for making soup. But our hearts were high and full of hope over the prospect of game, beaver especially, for no one had been up the river for years.

We camped the first night about ten miles out, having started late in the day. Fine paddling, smooth stretches of water with scarcely any current, then a small rapid, generally shoal, up which my small canoe would shoot like a jackfish, while Patrick often had to wade and lighten his heavily laden craft. Fish soup with a little syrup for supper, and then to bed with a determination to kill something edible next day.

We were up again at 2.30 and called all hands; a hasty snack and by noon we had made twenty miles. Here we were lucky in capturing a large sturgeon who was trying to ascend a very shallow rapid. Pushing my canoe ashore I threw myself on the fish and after an exciting struggle, landed him. Results—boiled sturgeon, very good for dinner. Another long hard paddle and we camped at a rapid where bears had been fishing with much success, judging by the remains laying scattered about. The next day, about 4 p.m., we passed the mouth of three small creeks and here Patrick found beaver signs and our mouths watered at the prospect of fresh meat. Going about a mile up the main river we pitched our tepee among some large birch trees, there being no under-brush. This was a beautiful camping ground.

After helping to set the tent we returned to the little creeks to watch for beaver, both going in the large canoe; and watch we did until too dark to see to shoot. Having no luck we made for camp. A wire-lay system had been arranged between us—when game was sighted the gunwale of the canoe was shaken. Presently I felt the canoe shiver, and on looking closely at the bank which here somewhat overhung the water, I could see the dim outline of an animal, so quickly fired. An amazing splash followed and we were deluged with water. Hauling the bag on board, it turned out to be a large black timber wolf, valuable for his pelt, but alas, not edible.

We here crossed the river and his time it was my occasion to give the signal, as being in the bow gave me a better lookout. This time a strong wake was visible going ahead of us, and I at once fired where I guessed the head was. A tremendous splashing followed and under the impression I had killed a beaver (who will never bite unless you put your hand in his mouth), I grabbed the soft fur and with some effort threw it into the canoe behind me. And then arose a battle din, for behold, it was a large bull otter. It was only stunned by the bullet which glanced on his skull, and it immediately attacked Patrick, who was in the stern. It was too close for him to shoot it, and then he might have got me. After a combat lasting some minutes, he managed to stun it with a large club that unfortunately had in the canoe for landing sturgeon. Pat was very mad and abused me in his best Cree, and it took us some time to sooth his injured feelings. Finally, on reaching camp, we all had a hearty laugh over it.

But the good wife was by no means pleased, as hearing the two shots she had visions of a nice beaver supper and there was only a wolf, which was bad eating, and otter which was worse. Fortunately she or Job (the son) had scared a partridge and a rabbit, and on these we fared frugally and then to bed with a deep vow that we would have something better on the morrow.

(To be continued)

Liquor Control in B.C.

Premier Oliver Outlines Plans of a Moderation Act.

Vancouver.—In an election manifesto, Hon. John Oliver, premier and Liberal leader, deals with what in a general way will be the basis of a moderation act in connection with the sale of liquor and what are the Government's general plans, if elected on December 1, regarding financial and railway questions.

In the opinion of the administration, to secure effective control of the liquor traffic, it will be necessary to apply to the Dominion Parliament for legislation under which the Provincial Government would have effective authority to control the sources of supply, to the extent necessary to prevent such sources of supply being made a base from which liquor could be obtained in contravention of the provincial statute.

"This suggests control might be obtained in one of several different ways, but the principle which should govern should be the one which would cause the least disturbance to legitimate business, at the same time obtaining the maximum effect of control.

"The administration is also of the opinion that the sale of malt and spirituous liquors to boys and girls under the age of 21 should be entirely prohibited."

Proposed Visit of Lloyd George.

London.—There has been no confirmation of the report that Premier Lloyd George will shortly visit Canada. The Canadian Press is informed that while the premier would certainly appreciate an opportunity of making the visit it was obviously impossible in the present state of affairs to make a definite arrangement or promise for the future.

Denounce Reprisals in Ireland

Sir Hamar Greenwood Says Government Will Maintain Discipline.

London.—In the House of Commons, T. P. O'Connor raised a debate by attacking what he described as the authorities' policy of frightfulness in Ireland which, he declared, was adding new battalions to the Sinn Fein army and besmirching Britain's good name.

Joseph Devlin, Belfast, and other members strongly denounced the reprisals in Ireland.

Sir Hamar Greenwood, chief secretary for Ireland, replying, gave statistics showing that the military charge against the police, and disciplinary action had been taken in ten cases. Trials had been ordered in other cases, including seven men for complicity in the destruction of property at Mallow.

The secretary denied emphatically that there was any Government intimature on the reprisals.

Endorses Government Attitude.

Halifax.—Announcement was made by Archbishop Worrell, president of the Ministerial Association of Halifax and Dartmouth, that at a meeting of that body a resolution was passed endorsing the attitude of the British Government towards the hunger strike of the late Lord Mayor MacSwiney.

Prominent Railway Official

MR. S. J. HUNGERFORD.

Decrease in Livestock

Bureau of Statistics Issues Interesting Report on Conditions.

Ottawa.—With the single exception of sheep the total numbers of all descriptions of farm livestock in Canada show a marked decrease this year as compared with last.

The Dominion Bureau of Statistics has issued a report showing the number of each description of farm livestock in Canada on June 15 last as estimated from returns collected by the bureau from individual farmers in conjunction with the Provincial Governments.

This return shows the total number of horses in Canada on that date this year as 3,400,352, while last year it was 3,667,369. Mules number 9,035 as against 15,102 in 1919. Cattle number 9,477,380 as compared with 10,084,011 last year, sheep 3,720,783 as compared with 3,421,098, and swine 3,516,678 as compared with 4,040,070 in 1919.

Poultry is 30,505 819 as compared with 34,645,238 a year ago. Rabbits, all in British Columbia, number 82,146 as against 83,050 in 1919. Cattle show a decrease in all provinces, save Prince Edward Island, and horses in all provinces with the exception of Prince Edward Island and British Columbia.

Problem of the New Canadians

25,000 In Alberta Who Are Unable to Speak the English Language.

Edmonton, Alta.—That there are 25,000 adults in the province of Alberta who cannot speak the English language and a great many more who cannot read, was the statement by J. Morgan, supervisor of schools among the new Canadians, in an address before the Northern Alberta Teachers' Association. These thousands of people, he said, should be able to read and write, and the only direct avenue through which this great number can be reached is through night schools for adults in rural communities.

Other speakers were Prof. Malcolm Wallace, of the University of Toronto, and J. W. Barnett, provincial organizer of the Alberta Teachers' Alliance.

War Against Soviet Subs

Earl Curzon States British Government Does Not Intend to Run Any Risks.

London.—Replying to the Russian Soviet Government's recent note concerning the operation of submarines by the Soviet navy, Earl Curzon, secretary for foreign affairs, says the British Government's belief in the proposed aggressive action of the submarines was based on a Soviet minister's statement when the submarines were launched in the Black Sea that he hoped they would sink entente vessels.

The British Government, he added, did not feel justified in running any risk and now had found its fears confirmed by the Soviet note which would permit of a Soviet submarine torpedoing a British ship under the excuse of mistaken identity. The note asserts that the Soviet forces in the Black Sea, are still engaged in open hostilities against British interests and says the Soviet Government can end this situation by giving the assurances contained in the British note of October 9.

Distributing Naval Prizes

Addresses of Men Entitled to Prize Money Are Wanted.

Ottawa.—The department of naval service is now distributing cheques for naval prize money to men having served with the R.C.N. and R.C.N.-V.R. A large number of claims have been paid out, but a great many cheques are still held as the addresses of the recipients are not known, and the department would be glad of advice as to the address of any man entitled to prize money who has not been paid.

Vancouver Cuts Prices.

Vancouver.—A 20 per cent reduction in its prices in about two weeks time is announced by one of the leading local restaurants. The cut is made possible by the reduction in prices of raw materials. Lately there has been noticed a slight decrease in the cost of certain foods.

Receives New Appointment

Now Vice-President in Charge of Operation and Maintenance of C. N. Railways.

Samuel J. Hungerford, who has been appointed Vice-President in charge of Operation and Maintenance of Canadian National Railways, is of the type of man, young in years and old in experience. Born near Bedford in Quebec, in 1872, he was only 48 last July, but he has been engaged in the business of the "rolling wheels" for 34 years.

As a boy of 14, at Farnham, Quebec, he first really became acquainted with a railway locomotive. Metaphorically speaking, he boarded it then and has made it carry him from the lathe of the machinist's apprentice to the chair of the Vice-President of what will be, when the Grand Trunk System is included, the world's greatest railway.

Mr. Hungerford is a man of quick action who never seems to be in a hurry. He has a wide circle of friends in the railway world—friends that he made while mastering his various jobs in the Mechanical Department at important railway points clear across the country. Any of these friends, officer or employee, Eastern or Westerner, will say that "S. J. is there with the goods," and that he knows a locomotive and a car from the rails up, and how to utilize them to the best advantage. He has the reputation of being past-master in the art of handling men, of one who cannot be beaten on wage negotiations, and of one who is an all-round diplomat but firm as the proverbial rock when necessary.

The job of Operating Vice-President is one of the most important in railway service, and, as the Canadian National is easily among the biggest of railway systems, S. J. Hungerford's new job may be classed in like proportion.

He will have the direction of forces that spend more than 90 per cent. of the total operating expenses of the system, and these on the present mileage (including the G.T.P.) and with the present scale of expenditure, amount to 167 million dollars per annum. It is Mr. Hungerford's business to see that the great expenditures of money day by day on the publicly-controlled road are so made as to insure the largest return in condition of track structures and equipment and the movement of the largest amount of traffic possible. Those who know S. J. Hungerford well, have complete confidence in his capacity. He is regarded as one of those men who, with the President, Mr. D. B. Hanna, will set new standards of devotion to duty and loyalty to employers—in this case the general public of Canada.

Search for Oil and Gas

Dominion Forest Reserves in West Are Open for Prospecting.

Ottawa.—An order-in-council, passed recently, permits prospecting and development of natural gas and petroleum on Dominion forest reserves in the west, subject to certain regulations.

The order states that requests have been made to the Interior Department that the petroleum and natural gas regulations, applicable to Dominion lands, should be extended to the forest reserves, in order that an opportunity may be given to test the lands with a view to discovery, and representations have been made that from the surface indications, these lands may contain a commercial supply of oil.

It is advisable, says the order, that permission be given to prospect for oil and natural gas in at least a portion of these reserves, as discovery of these products would be of great public benefit, and would also enhance the value of portions of the reserves retained by the crown.

The new regulations come into force on September 6.

Another order-in-council provides that, for a period of five years after oil in commercial quantities has been discovered on crown lands, the royalty to be collected by the crown shall not exceed five per cent. of the output of the well or sale of the products of the location, nor be less than 2 1-2 per cent., and for the following five years not more than 10 per cent., nor less than five per cent., and thereafter, ten per cent.

No Fuel Shortage

Plenty of Fuel for the Railroads, State Officials.

Ottawa.—With the arrival of cold weather, officials of the Railway Commission who are handling fuel conservation and distribution are not apprehensive as to supplies if the early winter weather proves reasonably good. Production in the United States mines has been speeded up to a great extent and the gain in tonnage is being kept up.

The American bituminous mines had the largest output of any October since the war year of 1918. There is also a steady increase in the output of anthracite.

Four rubber balls in a new electrical machine massages persons' spines as effectively as the fingers of a strong masseur.

Next U.S. President

Senator Warren G. Harding, of Ohio, who succeeds Wilson at the White House.

Republican Victory in U.S.

Senator Harding Elected President of Republic by Sweeping Majority.

New York.—One of the most sweeping Republican victories in history stands recorded for Senator Warren G. Harding, for president, and for a Republican Congress.

Defeat in their fight both for the presidency and Congress was conceded early by Democratic national Leaders on the basis of the increasing Republican vote. With the presidency and congress went loss to the Democrates of governors, state legislators, and other state and local candidates. The break even threatened the border states hitherto "solid south," with Republican gains in some southern states larger than any since the civil war.

Senator Harding's victory over Democratic leaders, which many Republicans hailed as the "solemn referendum" upon the League of Nations, was impressive. The results presage a larger majority in the electoral college for Senator Harding and his running mate, Governor Coolidge, of Massachusetts, than any since 1888, except alone the vote of 435 for President Wilson in 1912 during the Republican "split."

The Republican congressional swing was as strong, increased majorities in both Senate and House being marked up.

The first trial of woman suffrage contributed largely to the Republican majorities and also was a factor in delaying the count in many states. The millions of women's ballots also swelled the popular vote recorded beyond all records.

Senator Harding accepted his victory without exultation, stating that he was "more given to prayer to God to make me capable of playing my part."

To Governor Coolidge, the next vice-president, he sent a message, stating: "We've got a real job and we'll tackle it together."

Compliment to Canada

Empire Press Union Speaks Highly of the Dominion.

London.—Much that was complimentary of Canada's hospitality was said at a luncheon by the Empire Press Union to Lord Burnham, president of the Imperial Press conference, which toured Canada recently.

Lord Burnham also said that Canada wanted British news in Canadian papers from the British viewpoint, and that the British wanted almost as much Canadian news in the British press from the Canadian viewpoint.

Desperate Bolshevik Offensive

Anti-Soviet Forces Are Fighting to Save Their Winter's Supply of Food.

Sebastopol. — General Wrangel's cavalry still is engaged in an attempt to stem the tide of the Bolshevik offensive in Southern Russia. Red airplanes are bombing the narrow railway trestle running from Perekop into the Crimea. Taurida is overrun with Red armies. The Second, Sixth and Thirteenth Armies are in the line, in addition to four divisions of cavalry and other corps of the best of the Red troops. If General Wrangel is able to hold off the Bolshevik at the Perekop Isthmus, he has food enough to last him throughout the winter.

Breaks Records in Fast Flight.

Paris.—Captain De Romanet, the French aviator, in a Spad-Hispano airplane, flew one kilometer at a speed of 309 kilometers an hour. This broke the world's record of 292.82 kilometers made by Sadie Leconte, the winner of the recent James Gordon Bennett Cup race recently.

Crops In Siberia Are Good.

Peking.—Boys and girls up to 15 years of age are being fed free of charge in the Far Eastern Republic of Siberia says a Verkhne Udinsk despatch to the Datta News Agency. Crops are reported to be exceedingly good and the cattle supply abundant.

Liquor Vote in Scotland.

London.—The latest summary of the Scottish liquor poll shows that 149 districts have decided to make no change, 24 favor reduction of licenses and 18 will go dry.

Britain, France and Italy Reach Agreement In Regard to Turkey

Condemn Proposed Embargo On Wheat by United States

Adverse Comment Is Made By The New York World.

New York.—The movement afoot in the United States to have an embargo placed on Canadian wheat imports as a medium of increasing the domestic price of wheat received adverse comment in the World. The newspaper says:

"It must be assumed that in appealing to Washington for an embargo on imports of wheat from Canada, the Chicago Board of Trade is animated by the purely altruistic purpose of helping the growers of Kansas and, round-about, to corner wheat and boost the farm price and profit, rather than of helping itself to an old-time corner for the benefit of its own crowd.

"Nevertheless, the utter futility of this embargo effort ought to be as apparent to the Kansas farmer as it must be to the Chicago speculator. This country is still a producer of wheat beyond its own needs. Its price is accordingly fixed, not at home, but in the outside markets, where the exportable surplus goes. Canada has this year grown a wheat crop so large as to leave over 100,000,000 bushels for export, and this surplus will directly or indirectly fall upon the Liverpool wheat market and affect the price for the United States as well as for Canada, just as certainly, whether it is first sold in the United States or first sent to Europe.

"Such an embargo as is asked for can have no more effect upon the raising of the Kansas or Chicago price of wheat than the damming up of Behring Strait could raise or lower the depth of the Arctic or Pacific Ocean.

"The federal trade commission is solemnly at work on statistics on Canadian wheat imports in response to the embargo appeals of the Chicago Board of Trade. The committee should be able to find more useful ways of employing its time."

More Outrages in Ireland

Two Civilians Shot to Death in Alleged Attempt to Escape.

Nenagh, County Tipperary, Ireland. —Lieut. Hamilton, of the military forces stationed in this vicinity, was shot dead when motor-cycling near here. Two men, arrested on suspicion of having been implicated in the killing, attempted to escape and were shot to death. Reprisals followed the slaying of the officer. Licensed premises and a printing office were destroyed by fire, a creamery was blown up with bombs and the machinery smashed. The inhabitants of Nenagh fled into the surrounding country. The noise of firing and explosions was heard throughout the night.

Food Crisis in Russia

Army Is Famished Declares the Bolshevik Premier.

London.—Nikolai Lenine, the Russian Bolshevik premier, frankly admits the seriousness of the food situation in Russia. A Central News dispatch from Copenhagen quotes him as follows:

"Soviet Russia never before has experienced such a food crisis. Moscow and other cities are paralyzed by famine and the army is becoming famished. It is necessary for us to use all means in our power to enforce delivery of foodstuffs by the peasantry."

Leon Trotsky, the Bolshevik minister of war and marine, says: "The Red army is in dire need of food and clothing."

Elaborate Preparations Being Made For Taking of Decennial Census

Will Embrace All The Old and Several New Features.

Ottawa. — The decennial census which will be enumerated in Canada on June 1 next, will embrace all the old features and several new ones. Included in the latter will be a record of all animals in cities and towns, as well as in the country, a report of market gardens, poultry and apiaries, and generally the capacity of urban centres in producing foodstuffs. Every farm in the country will be the subject of an individual report setting forth the ownership, tenure, acreage, crop value and livestock. Heretofore these returns were extended over four schedules.

In co-operation with the Provincial Governments, statistics are now being collected in regard to manufactures, mines, forests, and fisheries, and these will not be a feature of the next census. Births, marriages and deaths will also be eliminated because the statistics are now available annually. Particular precautions are to be provided against duplication or missing of names.

In the enumeration of the census two hundred and thirty commissioners and eleven thousand enumerators will be employed. Urban enumerators will each secure from one thousand to twelve hundred names, while those in the rural parts will be expected to turn in from six hundred to a thousand names with all particulars asked by the department. In the northern part of the western provinces, the Mounted Police will help out as formerly, while in the extreme north of Ontario and Quebec, the church missionaries and Hudson Bay factors will be utilized for the work. About two weeks will suffice for the enumeration, except in the remote and scattered constituencies.

Will Not Enter Provincial Political Field

Motion Is Finally Defeated at S.G.G.A. Convent on at Prince Albert.

Prince Albert.—A protracted discussion as to whether the Grain Growers' Association of Saskatchewan should enter the political field in that province, was precipitated when the convention of district 12 met here.

In the discussion there appeared to be a good deal of difference of opinion though the sentiment seemed to be about evenly divided. A number of the delegates argued that they could not maintain an attitude of independence if they appeared to favor one political party by remaining out of the province where that party was in power.

J. B. Musselman, the general secretary, made a vigorous speech against the proposal of entering the provincial field. He pointed out that the provincial issues were now separate and distinct from federal ones. Premier Martin having divorced himself from activities in the federal arena.

Mr. Musselman said that any attempt to enter the provincial field in Saskatchewan at the present time would only split the association if there was no rallying issue. Provincial politics at present. He suggested that the resolution be dropped.

Eventually the resolution favoring entry to provincial politics was withdrawn and one substituted condemning the provincial executive for failure to draw up a provincial platform in accordance with instructions at the annual meeting, was carried by a large majority.

A resolution advocating that divisions be created throughout the Dominion from which senatorial appointments must be made, was carried unanimously after considerable discussion.

A resolution was also passed demanding the reinstatement of the wheat board under the direction of the old chairman and vice-chairman.

Court Martial British Troops.

London. — Winston Spencer Churchill, Secretary for War, announced to the House of Commons, that a military investigation in Ireland had resulted in the decision to court martial several soldiers and non-commissioned officers.

Sails For England.

Ottawa.—Sir George Perley, Canadian high commissioner in London, will sail for England some time this month to resume his official duties.

CHURCH NEWS

Baptist Church services for Nov. 14th,—Concord, Sunday school at 2 p.m., divine service at 3. Ponoka, 7.30, text, "Hast Thou Found Me, O Mine Enemy?" Subject, "Good Night." A bright, helpful service, to which all are most cordially invited.

The ladies of the Baptist Church are holding their annual Thanksoffering meeting in the church on Monday evening, Nov. 15th, at 8 o'clock. A most interesting programme is being arranged, after which lunch will be served. The public is most cordially invited to attend.

St. Mary's Church, Sunday, Nov. 14th—7.30 p.m., evening service; 6.45 p.m., Sunday school.

On Sunday, Nov. 7th, the Rev. W. J. James was inducted by the Bishop of Wetaskiwin as incumbent of the parish of Immanuel Church, Wetaskiwin, with St. Mary's, Ponoka. There was a very good congregation, and the service was fully choral.

Union Church, Sunday, Nov. 14—11 a.m., "Elijah, the Dauntless, Disheartened;" 11.15 a.m., Sunday school session. 7.30 p.m., "The Recompense of the Merciful." All are heartily invited to these services. CHAS. BISHOP, Pastor.

Union Church choir practise on Friday at 7.45.

Young People's Society Wednesday, Nov. 17th, under charge of literary and debating department. All young people invited.

The regular meeting of the Quarterly board of the Union church will be held in the church on Thursday, Nov. 11th, at 8 p.m.

A GUARANTEE

The publishers of the Family Herald and Weekly Star of Montreal are doing the right thing with the public. Ninety per cent of new papers have already raised rates. The Family Herald publishers guarantee a full year's subscription at the old rate of $1.50 a year to all who remit before December 1st, 1920. We feel that many subscribers are receiving our two years in advance and thousands of new subscribers are being added. It is a great paper and the best value on the continent.

Wonderful improvements have lately been made in The Family Herald. Members of the Imperial Press Conference, who lately visited Canada, say it has no equal in the British Empire. Canadians should appreciate such a pap at the price. After December 1st they may have to pay more.

Any stock Branded bell or left ribs and on right side of neck, with wartle on left jaw, belong to Anderson Bros. Hobbema. Please notify them and receive reward.

DEPARTMENT OF AGRICULTURE FOR ALBERTA

In view of the present demand for Breeding Sows the Department of Agriculture has arranged with the Live Stock Exchange at Edmonton and Calgary to select the best young sows from those coming to the Stock Yards. Those who wish to secure one or more may write directly to the Secretary of the Edmonton Live Stock Exchange, Ltd., Stock Yards, Edmonton, or to the Secretary Calgary Live Stock Exchange, Alberta Stock Yards, Calgary. A deposit of Fifteen Dollars ($15.00) should accompany the order—balance to be paid on delivery. When ordering specify weight and breeding desired.

The Department of Agriculture will have a representative at the Yards to assist in the selection of the sows.

HON. DUNCAN MARSHALL, Minister of Agriculture.

S. G. CARLYLE, Live Stock Commissioner

Choosing Coal by The Microscope

Series of Microscopic Tests By Which Various Coals Are Classified.

The selection of the particular coal to give the best results for certain purposes has always been an important matter for the engineer. Today, with the enhanced cost of coal, it has become a vital problem. Hitherto it has been the custom to rely upon open chemical compositions and tests of the heat value of the coal, but the engineer of a leading firm which buys about a quarter of a million tons of coal every year for various uses, confirms the suspicion that something more is needed before the most economical coal in each case can be determined. He has worked out a series of microscopic tests by which various coals are classified, each class being most efficient for steam raising, or gas production, or some other particular service. The method adopted is to grind the surface of a small sample of coal exceedingly smooth, fix it by the smooth surface to a piece of glass and grind away the remainder until a slice thin enough to transmit light remains on the glass. When examined under the microscope this slice reveals the inner structure of the coal. The behavior of the coal when fired corresponds to its structure, which thus provides an index to the use which ought to be made of the coal. The same investigator has found that very uniform results are given by samples from the one seam of coal so that one or two tests are sufficient to determine the qualities of the seam. If this method is developed it will become possible to order coals according to an exact specification, much as is now done with special steels and alloys.

Cotton Seed.

Cotton seed was treated as garbage in 1860; by 1870 it was being used as fertilizer; in 1880 its usefulness as food for cattle had been recognized; and in 1890 its potentialities as a table food were being advertised the country over. Now it is one of the most important of the sources of oils, varying from the clearest "olive"to the coarsest paint-oil.

The largest edible oysters in the world are found in Australia. They measure sometimes more than a foot across the shell.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy — Mother Graves's Worm Exterminator.

In Reduced Circumstances.

The former Kaiser has lost a large part of his wealth,and has now an income amounting to a bare $600,000 a year. Still, he can do pretty well with that in Holland, which is an inexpensive place to live in.—From the Cleveland Plain Dealer.

One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and household duties than they do to their health. It is any wonder then that they become irritable and nervous, have hot flashes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes sad and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out weary women need to restore them to the blessings of good health.

Mrs. P. H. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes, when I felt like a different person. I am ever without them in the house and recommend them to all who suffer with their nerves."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Old Roman Roads

Formed the Backbone of the Transportation System of the Ancient Empire.

Some of the roads built by the Romans 2,000 years ago are still in active use. These roads have lasted through the centuries simply because of their massive construction.

An earth subgrade, carefully prepared and drained, was the foundation for four layers of materials, each so carefully laid that it contributed greatly to the long life of the road.

First came the statumen, on foundation, then the rodus, next the nucleus, and finally the pavement or wearing surface. The statumen and pavimentum consisted of large flat stones, while the two intervening courses were built of smaller stones laid in lime mortar.

For the chariot and pack-horse traffic of Roman times, such roads seem ridiculously heavy, but the wisdom of the builders was amply demonstrated by the 800 years during which the Roman road system formed the backbone of the transportation system of the ancient empire.

The First Electric Ship.

The Cuba, the world's first electrically propelled passenger and freight ship, was sent on her first trial trip from Brooklyn recently. The Cuba is 300 feet in length and has accommodation for 250 passengers.

Kill the Germs of Catarrh

BY ACTING TODAY YOU CAN QUICKLY CURE CATARRH AND AVOID BRONCHITIS, PERHAPS CONSUMPTION.

Most Agreeable and Surest Cure Is Catarrhozone, Which Cures Every Curable Case.

Catarrhozone proves especially good in those chronic cases where mucous drops down the throat, sickens the stomach, and pollutes the breath. When the nostrils are stuffed, only a few breaths through the inhaler are needed to clear the passages, and where there is coughing and sore bronchial tubes, the soothing, healing properties of Catarrhozone act almost as magic.

Once you stop taking medicine into the stomach and get the healing oils and pure balsams of Catarrhozone at work you can be sure of quick and lasting cure for nose colds, catarrh, weak lungs, bronchitis and speaker's sore throat.

The complete $1.00 outfit of Catarrhozone is sufficient for two months' treatment, and is guaranteed. Small size 50c, at all dealers, or the Catarrhozone Co., Kingston, Ont.

Communication with the Dead.

Thomas A. Edison does not believe that human personality exists after death. Yet, he added, he was still working on his apparatus for communicating with the dead. Mr. Edison compared his apparatus to a valve which, turned by the comparatively puny human hand wielding one-eighth horsepower, release the energies of a mammoth turbine with 50,000 horsepower.

Record Revenue from Fish and Game

Ontario's revenue from the fish and game department for the fiscal year ending Oct. 31, is one hundred thousand in excess of the revenue for last year, and greatly in advance of any other year in the history of the department.

Masterpiece For Montreal.

Lord Atholstan has purchased Gabriel Max's celebrated masterpiece, "The Raising of Jairus' Daughter," for presentation to the Montreal Art Gallery.

Minard's Liniment Co., Limited.

Gentleman, I have used MINARD'S LINIMENT on my vessel and in my family for years, and for the cruel sea ills and accidents of life I consider it has no equal.

I would not start a voyage without it if it cost a dollar a bottle.

CAPT. F. R. DESJARDIN.
Schr. "Storke," St. André, Kamouraska.

Horse Is Vanishing.

The horse is being driven even from the plains of Montana. The last big horse raising company in the state will soon cease to raise horses. The "Long X" company will place its brand on cattle only in the future. Three thousand horses will be sold at its final auction. Motor cars and tractors to blame, say officials.

Uncovers Ancient Monster.

E. H. Barbour, of the Nebraska State University, has unearthed the skeleton of a prehistoric animal, which he believes to be more than 200,000 years old. It will be preserved and sent to the university museum.

Corns cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

Lucky is the man who loses his reputation—if it is bad.

Minard's Liniment For Diphtheria.

When The Day Is Over

When the household worries of everyday life have dragged you down and made you unhappy, and there is nothing in life but headache, backache and worry, turn to the right prescription,

one gotten up by Dr. Pierce fifty years ago.

Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening pains, irregularities, and for the many disorders common to women in all ages of life.

Orillia, Ont.:—"I suffered from a bad case of woman's trouble with backache, nervousness, disordered digestion, irregularity and I had great pain all the time, some days I would faint at my work. I had one physician after another but they did me no good. I then took Dr. Pierce's Favorite Prescription and it fixed me up all right. I took much better and feel fine. I will recommend the Prescription' to all suffering as I did."— MRS. MAYBELLE B. GRATRIX, 118 Albert St.

Write Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for confidential advice and you will receive the medical attention of a specialist, wholly without fee—no charge whatever.

Progress of "Wireless"

Connecting all Parts of the Empire by a Network of Radio Circuits.

Radio-telegraphy has made such progress recently that it may yet supercede the costly and frangible ocean cables. In comparing the two systems, Rear-Admiral Bullard of the United States navy, said that in the past fifty years there has been practically no development or increase of efficiency of the cable. Lieut.-Col. B. C. Gardiner, one of the British delegates, stated that the Imperial Communications Committee, which deals with the questions of cables and the wireless policy of the British Empire, had recommended the erection of twelve high-powered radio stations in England, India, Africa and other parts of the United Kingdom for the purpose of interconnecting all parts of the Empire by a network of radio circuits. These stations are to be owned and operated by the British Government, and not by private capital. In the United States the Navy Department has entered into close relations with a private company which is completing a radio central station system to provide lines of communication to all parts of the world.—From the Toronto Globe.

Want Advanced Legislation

Urge That Domestics Be Included In Compensation Act.

At a meeting of the United Women's Educational Federation of Ontario held at Hamilton, a resolution was passed petitioning the Ontario Government to include domestic servants as beneficiaries under the Workmen's Compensation Act, and requesting that domestic servants come under the provisions of the Minimum Wage Bill.

A resolution was passed calling upon Hon. R. H. Grant, minister of education, to have swimming pools installed in all public schools in the province.

"My Back Is So Bad"

PAINS in the small of the back, lumbago, rheumatism, pains in the limbs all tell of defective kidneys.

Poisons are being left in the blood which cause pains and aches.

The kidneys, liver and bowels must be aroused to action by such treatment as Dr. Chase's Kidney-Liver Pills.

There is no time for delay when the kidneys go wrong, for such developments as hardening of the arteries and Bright's disease are the natural result.

One pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

Dr. Chase's Kidney-Liver Pills

Winter Holiday Resort

A Delightful Trip Through The Canadian Rockies to the Pacific Coast.

Shortly after leaving Calgary the route of the Canadian Pacific Railway winds for some distance through the foothills before plunging into the fastness of the mighty Rockies. Then for over five hundred miles a continuous panorama of bewildering magnificence is presented, which no pen can adequately describe. Wondrous glacial fields, stupefying precipices, snow-capped peaks, wide forest areas, clear lakes and peaceful valleys combine in enchanting array. Add to this the 165 miles steamer trip on the palatial Princess Steamers from Vancouver to Victoria and Seattle on Puget Sound, the most charming inland voyage known, and you have a pretty fair idea of what the Canadian Pacific has to offer the traveller to the Pacific Coast.

Vancouver Island is recognized as Canada's all-year resort, where golf, motoring and other outdoor pastimes may be enjoyed every day in the year. Thousands of miles of magnificent motor roads radiate from Victoria to various points of interest.

A visit to the coast that does not include a few days at Victoria cannot be justified. It is rather a pity to spend the time "doing" cities that are in most of their essential features very much alike, if it means eliminating Victoria, when by a four-hours sail by steamer on one of the most beautiful stretches of inland waters in the world, your trip may take on all the characteristics of a foreign tour.

A trip to the Pacific Coast this winter will be time and money well spent. Any Canadian Pacific Agent will gladly furnish particulars and any information which may be required.

The Modern Newspaper

Is One of the Greatest Factors in Our Complex Civilization.

The modern newspaper, with its vast circulation and wide appeal, is a critic of the time—a mirror of the moment. It is the schoolmaster of the world. But it is more than that. It is an ever-kindly friend, a staunch and certain help in trouble. It reaches to every corner of the land, stretching out the hand of comradeship to every townsman and every cottager. During the war its power was invaluable. It brought the last poor crumb of comfort to many bereaved—conveyed by some pictured trinket—that even in death they were not forgotten. The universal knowledge that publicity brings makes all mankind your friend. It is the ladestar of civilization.—London Daily Express.

Catarrhal Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces.

ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 75c. Circulars free.
F. J. Cheney & Co., Toledo, Ohio.

Origin of Dollar Mark

Accountants First Used it to Save Time.

Before 1880 the dollar mark ($) was seldom used. It appeared in the eighteenth century manuscripts not more often than once or twenty times. But the dollar was then a familiar coin. The sums are given in dollars, but not one of the signers used the $ symbol; they wrote "dollars," or "doll.", or "dls." The dollar mark clearly came over in general use from the accountants or book-keepers who first employed it as a means of saving time. It is a remarkable coincidence that the three names by which the Spanish dollar was known, peso, piastre and piece of eight, all began with the letter p, and all three formed the plural by the addition of the letter s. Hence p and ps answered admirably as abbreviations for any of these names. Men wrote p with a flourish and raised the s somewhat above the p. The transition from this symbol to the dollar mark apparently came about unconsciously, in the effort to simplify the complicated motion of the pen.

New Manitoba, northof latitude 53, last year produced from natural resources $3,500,000 worth of commodities, including copper and gold ores, fish, furs, timber and agricultural products.

Women have poor heads for figures. That may be why it is almost impossible for one to figure her age correctly.

An Oil that is Famous.—Though Canada was not the birthplace of Dr. Thomas' Eclectric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

HOUSEHOLD NECESSITY

Gillett's Lye has long been regarded as a household necessity because of the fact that it is useful in so many ways, and so satisfactory in every respect that no woman feels that she can keep house without it. Makes the finest kind of soap for washing and cleansing. One can of Gillett's Lye will make ten pounds of good soap in twenty minutes. Many of its uses are shown in booklet under the label.

"GILLETT'S LYE EATS DIRT"

Made in Canada.

Horseback Riding

A Saddle Horse For Every Family Is Advocated.

Horseback riding is a more general sport now than it has been for many years past—since the days when the saddle horse was used of necessity. Now he's used for exercise and diversion. There are more privately owned saddle horses and many more horses kept for hire today, than before the advent of the motor car.

The Horse Association of America shows proof that good riders need not be born horsemen, but can be made under the schooling of experienced riders and the horse itself. The association urges saddle horses and ponies for children especially. Boarding stables and riding academies have reduced their prices this fall, following the drop in cost of oats and hay.

Hamilton Hassett, the Billy Sunday of the west, says it means less work for the undertakers. "A child that is brought up with a horse or pony for a companion, is a child that is early taught self-control and poise, not by precept and principle but by experience," he says. "If there were a pony in every home, there would be less erratic children and less work for the juvenile courts, less drugs, less work for the undertakers."

"Pape's Diapepsin" for Stomach

"Pape's Diapepsin" is the quickest, surest relief for Indigestion, Gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and clearly show that stomach is the source of most favorite foods without fear. Large case costs only 50 cents, and any druggist in the harmless and pleasant. Millions helped annually. Largest selling stomach corrector in world.

Irkutsk, Siberia, with a population of 120,000, has had an average of 500 murders a year for decades.

A whale is able to remain under water for an hour and a half without coming up for air.

A Born Politician.

Little Joey Jesso was entertaining his sister's nervous admirer, and, after making the usual juvenile remarks on marbles and tops, he announced: "Ethel told ma yesterday you was a born politician." The young man was delighted, and, wishing to know more, added: "That so? Why does she think that?" "That's just what ma wanted to know, and Ethel said it's because you can do so much talking without committin' yourself."

RICH, RED BLOOD NECESSARY TO HEALTH

When the Blood Becomes Weak and Watery a Tonic is Needed to Build it Anew.

Why are we being continually told that good, health-giving blood must be bright red? What has color to do with the quality? Just this—the oxygen in the air is the great supporter of all organic life. One function of the blood is to take the oxygen from the air—which it meets in the lungs and deliver it to the tissues of the body. It is the blood, filled with life-sustaining oxygen, is sent out by the heart, it is bright red. When it returns impure and deprived of oxygen, it is dark.

You will see, therefore, that there are two prime requisites of the life, pure air and bright red blood—the pure air to furnish the oxygen, the red blood to carry it where it is needed. Dr. Williams Pink Pills make your blood rich and red because they increase its power to carry oxygen, actually making it so much more able to carry increased life and strength to every organ in the body.

Pale, anaemic people whose nerves are on edge, whose cheeks are pale, and who tire out easily, should try Dr. Williams Pink Pills, and note the steady improvement that follows their use. You can get these pills from any dealer, or by mail, post paid, at 50 cents a box, or six boxes for $2.50, by writing The Dr. Williams Medicine Co., Brockville, Ont.

Manitoba Egg-Laying Contest

Ten Single Comb Anconas Give 2,041 Eggs in Year.

A pen of single comb Anconas, owned by W. H. Howe, of Winnipeg, won the egg laying contest conducted for the province at the Brandon Experimental farm. This pen laid 2,041 eggs in one year.

A pen of White Wyandottes, owned by Thos. Lund, of Stonewall, is second with 1,842, while a pen owned by W. H. Simmington, of Brandon, was third with 1,830. These three pens also were the three highest egg layers in the Dominion. Each pen contains ten birds.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

World Press Congress Postponed.

The press congress of the world, which was to have been held at Sydney, Australia, in 1918, but was postponed till March, 1921, has been further definitely postponed, mainly through travel cost and other difficulties.

Women are curious about everything; men are curious only about women.

The Welsh language closely resembles that spoken in Brittany.

Five Miles of Warships

Surrender of German Navy Has Been Completed.

The final batch of surrendered German warships arrived in the Forth at Edinburgh the other day. The concluding surrender included five cruisers—the Lubeck, Stettin, Danzig, Augsberg and the Munchen.

Lined mostly off the Linlithgowshire shore, the ships stretch for five miles above the Forth Bridge.

They will be disposed to minor naval powers such as Brazil, Chili and Poland.

The vessels are somewhat dilapidated and look shoddy in appearance compared to the British warships.

Minard's Liniment For Garget in Cows.

Winnipeg Building Permits.

From January 1st to the end of September this year the total value of the building permits issued in Winnipeg was $8,498,400. This is the highest figure that has been reached over a similar period since 1912, indicating that the city is getting back to its pre-war stride of prosperity.

Ten Farms Sold.

The Canada Land and Irrigation Company disposed of ten farms during October on their property fifty miles west of Suffield, Alberta.

1000 Eggs in Every Hen

New System Of Poultry Keeping—Get Dollar A Dozen Eggs—Famous Poultryman.

TELLS HOW

"The great trouble with the poultry business has always been that the laying life of a hen was too short," says Harold Trafford, International Poultry Expert and Breeder, for nearly eighteen years Editor of Poultry Success.

The average pullet lays 150 eggs. If kept the second year, she may lay 100 more. Then she goes to market. Yet, it has been scientifically established that every pullet is born or hatched with over one thousand ovum or egg germs in her ovaries, and that by them on a highly profitable basis over a period of four to six years' time if given proper care.

How to work to get 1,000 eggs from every hen; how to get pullets laying early; how to make the old hens lay like pullets; how to keep up heavy egg production all through cold winter months when eggs are highest; triple egg production; make slackers into hustlers; $5.00 profit from every hen in six winter months. These and many other money making poultry secrets are contained in Mr. Trafford's "1,000 EGG HEN" system of poultry raising, one copy of which will be sent absolutely free to any reader of this paper who keeps ten hens or more. Faces should go to a dollar or more a dozen this winter. This means big profit to the poultry keeper who gets the eggs. Mr. Trafford tells how. If you keep chickens and want them to make money for you, cut out this ad and send it with your name and address to Henry Trafford, Suite 264P, Tyne Bldg., Binghamton, N. Y., and a free copy of "THE 1,000 EGG HEN" will be sent by return mail.

"Back to God's Country"

FRIDAY and SATURDAY
November 12 and 13
IN EMPRESS THEATRE

The Curwood-Carver Production, Inc. presents
Neil Shipman
in
"BACK TO GOD'S COUNTRY"
Adapted from the story, "Wapi, the Walrus," in "God Housekeeping"
By James Oliver Curwood
Directed by David M. Hartford

Shan Tung, the Chinese, was shot and killed in a gambling den of the far north. Shan Tung had a savage dog, Wapi, the Killer, a throwback from a white man's dog.

Came to the ice fields a beautiful white girl, a woman who loved and was loved. In the snowbound trading post the girl and the man she loved came into the power of a man known from Alaska to the Horn as an inspiration trader in gold and women. He coveted her.

A heart of gold and iron, the girl battles with man and nature to save her lover—and her honor.

And Wapi, the Killer! Do you know what this great savage beast did? How he came to this girl in the time of her direst need is a story of thrill and wonder

This Picture was taken near Great Slave Lake, north of Edmonton
